## Memorials

*My sincere condolences. I worked with Jack at UTD in the early 1970's on the NASA instruments. Jack was the electrical engineer and I was the mechanical engineer for the instruments. Jack was a good engineer and a pleasure to know and work with.*

*I have known Jack since he joined our Branch in the Central Research Labs at TI in the mid 60's. I remember him as being very religious and fully committed to his church. He was a very hard worker who was able to complete the requirements for a PhD while holding a full time job. Our careers at TI took different directions, but I always treasured our friendship. My prayers are with Faith and their sons.*
